Subject: Microsoft Settlement

Dear Sir or Madam:

Per the conditions of the Tulley Act, I wish to register a comment against the current proposed settlement with the Microsoft Corporation.

While I think many of the measures indicate good intentions on the part of those drawing up the settlement, in its current state the settlement will serve little purpose except to be a token gesture in the general direction of the problems it was meant to solve.

In the interest of brevity, I will not go into specifics concerning the legion of shortcomings the current settlement contains. Suffice to say that it is my earnest and heartfelt opinion that a great deal more work needs to be done before this settlement would actually be capable of reaching its stated goals.

Sincerely,

J. Clifton Bullard
